LED SAFETY VEST SAFETY - ECO RESPONSIBILITY

ACTIVE SAFETY

The 14 LED lighting combined with the reflective strips will allow you to be visible and safe in all circumstances, day and night. The K-Safe LED vest is a real individual safety equipment.

Equipped with 14 red LEDs, it has several functions of lighting:

- Slow flashing and quick flashing
- Steady light
- Off

COMFORT AND AUTONOMY

The LED safety vest K-Safe offers up to 135 hours of autonomy in flashing mode, and 65h hours in fixed lighting, on batteries.

We also offer a rechargeable lithium battery in option.

Comfortable for the user, it is light and pleasant to wear thanks to its flexible reflective and resistant bands, as well as its flat, non-blinding LEDs.

The LED vest is designed to significantly improve the comfort and productivity of productivity of operators.

ECO RESPONSABILITY

100% recyclable and biodegradable packaging, it is perfectly in line with our environmental approach.
